Spa & Wellness

Exceptional relaxation

Time to pamper yourself

Visit Hof van Saksen, the greatest resort in the Netherlands, to really get away from it all. Spend time in a beautiful region with so much to do and relax with your family or friends.

The perfect we-time

But it's just as important to take some well deserved me-time: an opportunity to focus on yourself and do what you enjoy. In our busy lives we often take care of others at the expense of ourselves. A few hours in our Spa & Wellness may just be the wonderful me-time boost you need to recharge your batteries. The beautiful, soothing space offers a range of facials and body treatments, massages, pedicures and manicures.

Our ladies and gentlemen guests and young visitors can also choose from a number of tailormade treatments. And in between sessions or after your treatment, sit back and sample a delicious lunch. In our sauna landscape you will find a Finnish sauna, Infrared sauna and steam bath. After that, the plunge pool and whirlpool await you.

Or head straight to our sauna garden or relaxation area where you are completely free to relax. Or snooze, dream, read, lounge and rest. Also enquire about our tai chi or yoga workshops. Known to revitalise the body and soul, these workshops are very popular for a reason.

So treat yourself to some me-time at Hof van Saksen and pamper yourself with some tender loving care. Afterwards you will be ready to take on the world.

Facial Treatments

All [comfort zone] treatments are accompanied by massages and begin with a Tranquility welcome ritual, designed to relax both body and mind. Everyone's skin is different and therefore needs personalised care and attention. Our beauticians are specialised in skin analysis and the methods involved in it. They will draw up a personal treatment plan with you.

Sauna Area

Hof van Saksen boasts extensive sauna facilities. There are a number of different saunas and between sauna treatments you can enjoy a light lunch, a snack and a drink. This is where your

body and mind achieve total relaxation.

Finnish sauna 60°C en 90°C

The pleasant heat of the Finnish sauna will allow you to completely relax. Stones are heated in the sauna to produce a dry heat. When you visit the Finnish sauna your blood circulation improves and it also has a beneficial effect on the immune system.

Turkish steam bath 55°C

The Turkish steam bath offers both relaxation and enjoyment. It consists of a room heated to around 55°C with humidity levels of almost 100%. The warmth and steam are beneficial to your airways, helping you to breathe more easily.

Infrared sauna 70°C

The infrared sauna is a moderately warm room in which the heat of the infrared heaters is transmitted to the body without the intervention of air. The infrared rays are wonderfully relaxing and are effective in easing tired or painful muscles. It is a good idea to visit the infrared sauna before having the treatment.

Footbath

It's a good idea to warm up your feet in the footbath before entering the sauna. The temperature of the water will open up the pores and improve circulation. This will make it easier for your body to perspire in the sauna. You can also use the footbath when you come out of the sauna to help bring your body back to a pleasant temperature.

Plunge pools

The plunge pool is a brilliant way to cool down after the sauna bath. It is recommended that you spend no more than 10 to 20 seconds in the plunge pool. Beyond this point, the cold water will draw too much heat from your body.

Luxury bubble bath

Once you have cooled down from the sauna, why not take a relaxing dip in the bubbles? The water jets and air bubbles create a relaxing effect. You can find the luxury Jacuzzi outside in our sauna garden with sun loungers.

Swimwear days

Every Wednesday and Saturday are swimwear days in our Spa & Wellness. On these days, guests can only access the sauna area in swimwear. The use of swim trunks, a bathing suit or bikini is mandatory all day. On other days, the use of swimwear is not allowed. Slippers are always mandatory.
If you prefer to go to the sauna in swimwear, the textile bathing day is ideal for you

Spa etiquette

Our Spa & Wellness is a place of relaxation and tranquillity. All of our guests have the right to privacy and peace. Please turn off your mobile phone and leave it safely in a locker while enjoying your time in the Spa & Wellness.

Good to know

- We recommend booking the various treatments and massages in advance to avoid disappointment.
- In the interests of hygiene, a towel must be used for sitting on and resting the feet on while in the sauna (except in the Turkish steam bath). Towels are available for rent at the desk in our Spa & Wellness.
- For pre-booked treatments, please arrive at least 10 minutes before your treatment is due to take place.
- The treatment times given are indicative and include any explanations, changing and/or showering.
- We recommend that you take plenty of rest and drink sufficient amounts following a treatment. This will allow the treatment to have the optimum effect.
- Anyone under the age of 18 must obtain permission from a parent/carer before undergoing treatments or massages.
- A parent/carer must be present during the treatment of children under the age of 14.
- Fitness en Sauana admission is restricted to those aged 16 and over.
- Food and drinks brought into the premises may not be consumed in our Spa & Wellness.
- Hof van Saksen cannot be held liable for the loss or theft of items or valuable objects brought onto the premises by guests and accepts no liability for injury to persons and/or damage to property

Health requirements

- Please inform us beforehand (when making your booking) about any allergies or injuries that might affect your treatment.
- Please provide the person providing the treatment with any relevant information, including medical details, before the treatment takes place and preferably on making the booking. For example, please tell us if you are pregnant or suffer from high blood pressure, have heart problems, epilepsy, etc., and if you are currently being treated by a specialist. In the event of doubt or if you have any specific questions, please consult your GP/specialist.
- Pregnant? We have treatments designed especially for expectant mothers. Our team can help you choose which treatment is most suitable for you during this special time.
